This week

W/C Monday 7th September 2026

This week at Netley Marsh, reception have been exploring all the different areas during discovery, from water play to rolling clay. In KS1 this week, we have really been getting stuck in to all out foundation subjects. During Geography we have been looking at our local area, features you would find in the city against features you would find in the countryside. The children really enjoyed sorting these features in small groups. They also heard a story about a country mouse and a town mouse, in which they had a go at thinking about the differences between the two and drawing them. Overall, it has been a lovely week!
