The Oaks CE Federation- Year 1 and 2 **Home Learning Menu**

KS1 Autumn 2 History: Lego Legends!

Choose from the menu <u>three</u> exciting activities to do at home. Please bring in any completed activities to school to celebrate with your class.

Get Creative – Build a LEGO Legend! Can you use LEGO or other building bricks to create an imaginary creature, character or invention? Give your creation a name and think about what makes it special. You could bring it in to introduce your LEGO legend to the class! 	**Oh, the places you'll go! – Toys through time!** Ask a parent, grandparent or another adult what they enjoyed playing with when they were little. Can you find out what their favourite toy was? Draw a picture of their toy and tell us how you think it might be different from toys you play with today. 
Reading Adventure – A Toy Story!  Share a story at home about toys, friendship or adventure. What do you think your toys get up to when nobody is looking? Draw a picture of an adventure your favourite toy might have and tell us what happens!	**Sing out loud! – Make some toy music!** Can you make up a song or a rhythm inspired by your favourite toy? Use your voice, clap your hands or tap everyday objects to make different sounds. Can you perform your musical creation to your family? 
Out and About – Let's play together! Play a game with your family that someone else can join in with. It could be a board game, a ball game or a game you make up together. How do you make sure everyone gets a turn? Can you teach your favourite game to someone in your class? 	**Amazing Maps – A map for a Lego Legend!** Imagine your LEGO character is going on a treasure hunt! Draw a map showing where their adventure begins and where the treasure is hidden. Add paths, trees, rivers or a secret cave. Can you use your map to tell someone at home how to find the treasure?
