What We've Been Working On

A very active week in the Bumblebees and Butterflies this week. Years 1 and 2 did us proud at the Federation dodgeball competition earlier this week, with both year groups bringing back trophies and bucket loads of excitement! In our maths learning we have been finding a half of shapes, quantities and group of objects, and in literacy we completed our independent write based on Augustus and his smile. In science we collected data about different pets in our class and in our geography learning we brought all of our learning from this topic together based on hot and cold places. The Netley team wish you a restful half term break.

Year 1 phonics focus

- 'c' making the /s/ sound
– ice
- 've' making the /v/ sound
– give
- 'o-e', 'o' and 'ou' making
the /u/ sound – some,
won, young

Tricky words
ask, different, thought
