

# This week

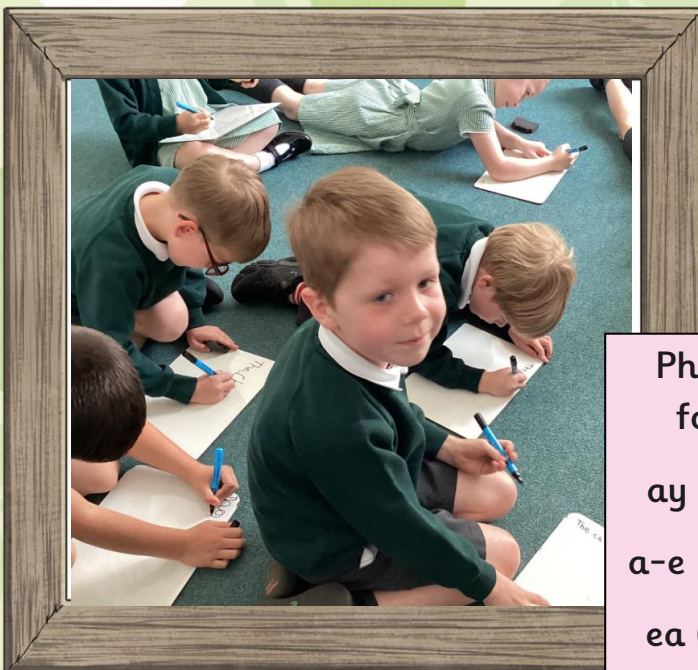

W/C Monday 20<sup>th</sup> April 2026

We have loved spending time out in the sun this week. In the classroom we have been busy looking after the radish seeds we planted last week, as part of our science learning. We are recording how they grow in different conditions. In maths, we have been learning about money. Year 1 have been recognising different notes and coins and Year 2 have been learning to add amounts of money, find change and make the same amount with different coins. In geography we have continued learning about Rwanda, looking more closely at the capital city of Kigali and comparing it to London.

We hope you have a lovely weekend in the sun and look forward to seeing you on Monday!
