

# This week

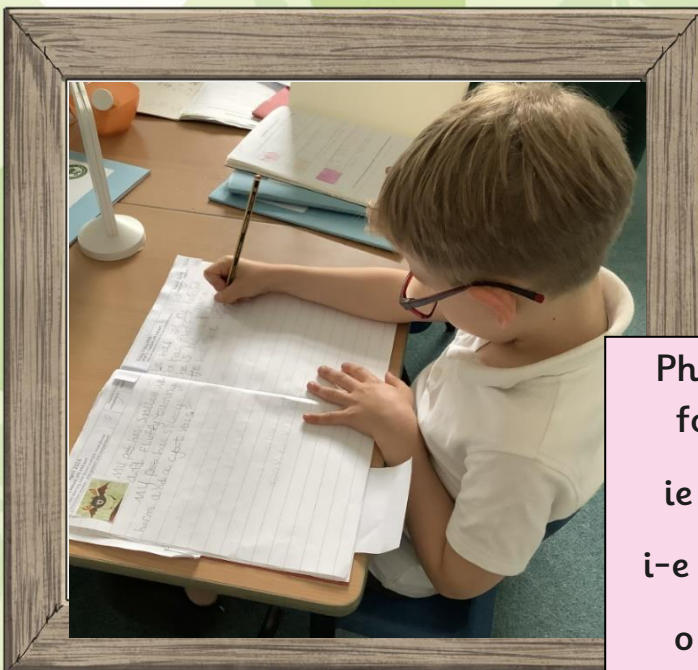

W/C Monday 27<sup>th</sup> April 2026

In our maths learning this week, we have been busy looking at shape and measure. Both year groups have looked at 2-D and 3-D shapes and Year 2 went on to look at volume, capacity and temperature. In literacy we have been looking at using adjectives to describe nouns and have been using these adjectives to write sentences using noun phrases in Year 1 and expanded noun phrases in Year 2. In our geography learning we compared our daily lives to that of Pauline, a young girl living in a rural area of Rwanda. In art we made patterns using geometric shapes.

We hope you have a lovely bank holiday weekend and look forward to seeing you on Tuesday!
