

This week

W/C Monday 15th June 2026

What a busy week we've had! We have been finding halves of shapes and numbers this week and also finding quarter of shapes too! In literacy we have a new book; **The Dragonsitter**, the children had their own balloon baby that they had to baby sit and they wrote about fun things they did whilst they were balloon sitting. In DT we have started practicing chopping safely and the children chopped their own cucumber and carrots! They did this so carefully; well done everyone! In history we were lucky enough to look at some artefacts from Florence Nightingale's suitcase! In science we completed our experiment of what happens to rubbish in the ocean and found that it did not dissolve.

Phonics focus
Recapping sounds and tricky words from last term.
