

This week

W/C Monday 6th July 2026

It has been another scorching week! Whilst prioritising staying cool, we have been exploring poetry in literacy and even wrote our own short poems about the beach and forest using our senses. In maths, both year groups have been telling them time, with Year 1 focusing on o'clock and half past, and Year 2 looking at quarter past and quarter to. In DT, we made our dips and dippers, using our cutting skills to create salsa and guacamole, and then cutting dippers to enjoy with our dips. In science we finished our learning about rockpools by creating our own rockpools and completing tally charts based on what was in them. Have a fantastic weekend in the sunshine!
