

This week

W/C Monday 5th October 2026

Dear God

Thank you for the sun and the rain that helps all the farmers crops to grow.

Thank you for the farmers that work so hard to harvest our food.

Thank you for fruit and vegetables to help us grow strong.

Thank you for all the special food we eat.

Thank you that we have food to eat every day.

Thank you that we have enough food and we can share our food with others at harvest time

Amen.

This week at Netley Marsh has been a very busy and exciting week! We not only had family church, but we were also lucky enough to have the 'Open the book' group come in to share a bible story with us. The children loved the interactivity of the story and really enjoyed it. In RE, we thought about what the Harvest Festival means to us, and created our very own prayers thanking God and all the other people involved in producing our food.
