

Summer 1 2019

Home Learning for our 'Grow For It!' Project

We have launched our project 'Grow For It!' with a letter arriving and some money to spend on our garden area. During this project, we would like to offer you the opportunity to do the following...

We have found some seeds in our shed, but the labels have fallen off! Can you grow them at home and keep a log of what happens and what it becomes?

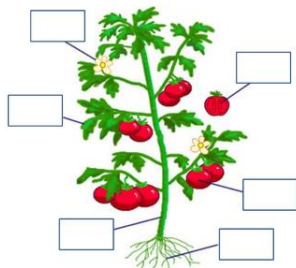

Look around your own garden and record what you can see growing there. Maybe you could do a picture to show us what you find?

Can you draw a plant and label the parts you have learned about in school?

Parts of a Plant

Can you label the different parts of a plant?

Keep reading!! Lots of you have new colour bands, change as often as possible. To get better you need to read as often as possible.

Please return any work by 7<sup>th</sup> June.

Thank you for your support!

Please note: Each activity will count as an hour towards your Children's University Award.
